

The Global Church Village will be a large display area and a meeting place on the Assembly site, featuring continental display of culture and church life. Items like photographs, banners, posters, artefacts, videos, recorded music, games or other unique things will help to visualize life in the different parts of the world. Storytelling from Anabaptist churches around the world will take us to different places while we listen.

A stage will create opportunity to share and enjoy music, dance & drama performances from around the world.
